

Rx Nimesulide, Cetirizine Hydrochloride,
Caffeine & Chlorpheniramine Maleate Tablets

COLDZESTOXY-PLUS

20x1x10 Tablets

Each Uncoated Tablet Contains:-

Nimesulide BP. 100 mg
Cetirizine Hydrochloride IP. 10 mg
Caffeine (as anhydrous) IP. 15 mg
Chlorpheniramine Maleate IP. 4 mg
Excipients q.s.

Colour: Sunset Yellow Supra.

DESCRIPTION:

Nimesulide is an antipyretic, analgesic & Anti-Inflammatory in action. Cetirizine is an antihistamine that reduces the natural chemical histamine in the body. Histamine can produce symptoms of sneezing, itching, watery eyes, and runny nose which are treated by Nimesulide. Chlorpheniramine Maleate an alkyl amine derivative is anti-histaminic that causes moderate degree of Sedation. Caffeine is a mild stimulant.

MECHANISM OF ACTION:

Nimesulide is an inhibitor of cyclo-oxygenase as it inhibits synthesis of destructive prostaglandins and spares cyroprotective prostaglandins. Antihistamines used in the treatment of allergy act by competing with histamine for H1-receptor sites on effectors cells. They thereby prevent, but do not reverse, responses medicated by histamine alone. Antihistamines antagonize, in varying degrees, most of the pharmacological effects of histamine, including urticaria and pruritus. Also, the anticholinergic actions of most antihistamines provide a drying effect on the nasal mucosa. Chlorpheniramine Maleate has sedative & anti-cholinergic actions. Caffeine is a mild simulant that helps reduce fatigue.

INDICATIONS: Body ache, pain, common cold and other allergic conditions.

CONTRAINDICATIONS: Hypersensitivity to any ingredient of the product.

SIDE EFFECTS: Headache, dizziness, nausea, anxiety, restlessness.

WARNING: Use of Nimesulide should ordinarily be restricted to 10 days. If longer clinical use is warranted, liver function test should be assessed periodically.

DOSAGE : As directed by the Physician.

Storage : Store protected from light and moisture.

KEEP THE MEDICINE OUT OF REACH OF CHILDREN.
